

Welcome to the EMMT Community

What is Elon Musk Meme Token ? Here is a quick resume :

First, this is a meme. Since day one and will always be.

This is experimental ; We want it to work.

Genesis :

Two friends, who wanted to create a nice crypto community for sharing advice and helping newbies. We can't do this alone, so we need a community. Every idea is welcome and everyone can contribute by sharing tutorials or news from the crypto world.

Why ELON MUSK ? Oh, come on. Why not ?

We will stay anonymous, we don't want to bring much attention to ourselves for the moment, please respect that.

We speak English and native French, as we're Europeans.

Why a token then ?

... Because why not ? Once and for all, this \$ELONMUSK token is not another DeFi farming / staking / high APY project.

It's only a tradable asset, having his value growing by buyback mechanics exposed briefly below.

Tokenomics :

ONLY available on PancakeSwap, the pool was opened with 100% supply of 10M Tokens, and the LP tokens were burned. **No rugpull can be done.**

Contract Address : 0x37f74f525e7bda86aec46fbbbedad806d58de1c9b Directlink
buy : [PancakeSwap Trade](#)

Chart :

[https://app.astrotools.io/pancake-pair-explorer/
0x7435ee39fab5c7052a2127e8ea9f7b17d41652f5](https://app.astrotools.io/pancake-pair-explorer/0x7435ee39fab5c7052a2127e8ea9f7b17d41652f5)

Incentives :

As of today, there is no use case for this token other than the Meme.

The smart contract have no special functions and can be quickly audited.

How valuable will it be then ? "Pretty" simple :

We have 3 other projects to come :

One is a token that will create value and profits itself by tokenomics, two others will create profits by use case. (Obviously too early to disclose more informations) A small percentage will be taken from those 3 projects transactions as profits and ~50% will be used to buyback \$ELONMUSK token, then will be added with left BNB tokens to the PancakeSwap pool, and LP tokens will be burned, weekly or monthly. This will lock liquidity, increase the token's value and create inflection.

Yes, it means that when you simply hold \$ELONMUSK tokens, their value will grow without doing anything but HODL them.

This Lightpaper is a version 1.

Every modification or suggestion is welcome, feel free to contact us.

Oh, we have zero budget for advertising, don't waste your time trying to sell us something. Thanks.
